A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication (including semaglutide or tirzepatide programs), treat this book as a log of your own observations. Dosing, titration, missed doses, and side-effect decisions belong only to you and your prescriber.

How to use this journal

The four quadrants

- Mood first — cravings are easier to read when you name the weather underneath.
- Intensity 1-10 is the peak, not the average. Write what you craved in plain food words.
- Quadrant 3 is the skill: walk, protein, delay, text, tea. Quadrant 4 is a sticker / tick box so your brain gets a close-the-loop reward.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Intensity 1-10	Peak craving, not all-day average
Reward space	Sticker, tally, or a word. Keep it small.
