A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

This journal is a personal tracking tool. It is not therapy, diagnosis, or treatment. Seek urgent care for chest pain, fainting, thoughts of harm, or a sudden change you cannot explain. New 'worst pain of my life', chest pain, weakness, or loss of bowel/bladder control needs urgent care.

How to use this journal

Mark two spots, not a novel

- Circle regions on the simple front/back map. Score 0–10. Note what you already use (heat, meds as prescribed, rest).
- Monthly dashboard: count flares, sleep, function (what you could still do).

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.
