A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication (including semaglutide or tirzepatide programs), treat this book as a log of your own observations. Dosing, titration, missed doses, and side-effect decisions belong only to you and your prescriber.

Calendars made for stickers

- Each month opens with a six-row calendar. Number the days yourself so the book never expires.
- The small circle in each cell is for a vinyl sticker (pre-injection / done). Press firmly; white KDP paper holds better than cream.
- Facing log pages catch dose-as-prescribed, lot, and site. A weekly sheet sits after the month log.
- Skip printable QR coupons — write any savings program name on the refill line. Coupons change; ink does not.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.
