

RANGE BAND PRESS

WELLNESS TRACKING SERIES

Perimenopause Symptom & Mood Chart

Daily hot-flash tallies, sleep wheels, cycle timelines, clinic question lists

Live inside the range.

Ninety undated days · six monthly reviews · 6 × 9 in

Undated · Personal use · Not medical advice

A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

This journal is a personal tracking and management tool. It is not treatment, therapy, or a diagnosis. It does not replace a clinician, counselor, pelvic-floor physical therapist, registered dietitian, or other licensed professional. Chest pain, fainting, flooding that soaks protection hourly, or sudden one-sided weakness needs urgent care.

If found, please return to

Intention for this volume

How to use this journal

Tally, do not diagnose

- Use tally marks for flashes and sweats. Intensity is the peak, 1-5.
- Shade a slice of the sleep wheel (1 poor - 5 restored).
- Monthly timeline is for spotting cycle length when cycles are chaotic — which they often are.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Sleep wheel	Circle a number 1-5 or shade a slice
Cycle day	Leave blank if you cannot number it. That is data too.

Where I am starting

What I most want to understand (sleep, mood, cycle, heat)
