How to use this journal

Measure, then substitute

- Copy hours from iOS Screen Time or Android Digital Wellbeing. Shade the 0-12 hour bar.
- Name the trigger in plain language. Then tick a real-world substitution you actually did.
- After 30 days, use the maintenance pages so the rebound binge has somewhere honest to go.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.
