A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication as prescribed, treat this book as a log of your own observations. It does not set doses, grocery medical diets, or lab ranges. Those belong to you and your care team.

How to use this journal

Sunday-or-whenever

- Left: the week in signals (sleep, protein, shot, mood, constipation, life).
- Right: a clean brief — three observations, questions, refill status. Write as if a tired clinician has ninety seconds.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Flag	Bring this week to clinic
Quiet week	Still fill the brief. Quiet is data.
