A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication as prescribed, treat this book as a log of your own observations. It does not set doses, grocery medical diets, or lab ranges. Those belong to you and your care team.

How to use this journal

Your recipes, not ours

- Each card: name, protein source, how it sat, would-make-again.
- Leftover log so food you prepped actually gets eaten.
- No branded meal plans. If a dietitian gave you a list, copy it onto the goals page.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.
