A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

This journal is a personal tracking tool. It is not therapy, diagnosis, or treatment. Seek urgent care for chest pain, fainting, thoughts of harm, or a sudden change you cannot explain. Thoughts of harm, especially cyclically, need urgent care. This chart cannot diagnose PMDD.

How to use this journal

Daily, then look at the luteal week later

- You do not have to know your cycle day. Mark bleed when it happens. Patterns show up in hindsight.
- Score mood, irritability, energy, sleep, breast/bloat 0–5. Flag days you would not trust a big decision.
- Bring two cycles to a clinician if that is your goal. One cycle is a weather report; two is a climate hint.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.
