# A note before you begin

---

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication as prescribed, treat this book as a log of your own observations. It does not set doses, grocery medical diets, or lab ranges. Those belong to you and your care team.

## How to use this journal

---

### Use it when life is not your kitchen

- Event page: what you ordered, how fullness showed up, what you'd repeat.
- Trip kit: refill, time zones, protein backups in a bag.
- This is not a restaurant ranking. It is a memory aid so you are not starting from zero every time.

# Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.
