GLP-1 COMPANION SERIES

Measurements, Photos & Labs

A quiet archive: inches, clothing, photo log, blank lab sheets

Live inside the range.

Undated · Personal use · Not medical advice

A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication as prescribed, treat this book as a log of your own observations. It does not set doses, grocery medical diets, or lab ranges. Those belong to you and your care team. Lab sheets are blank on purpose. Copy numbers from your portal. Do not interpret them here.

How to use this journal

Numbers without a courtroom

- Monthly: photos (optional), clothing, waist/hip if you use them, a range — not a daily verdict.
- Lab pages: copy, date, source. Leave interpretation to the clinician who ordered them.
- Skip any metric that makes you worse. The archive should be something you can stand to open.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Range	A band, not a single gavel
Photo	Optional. Same light if you can.
