

A night sky you color yourself. Twelve constellation plates drawn from real star positions with magnitude-scaled stars and diffraction spikes — Orion, Leo, Scorpius, the Dipper and more — plus moon phases with true terminators, Saturn's rings...
12 real constellations, magnitude-scaled
True-terminator moon phases
Galaxies, comets, nebulae in fine dots
Single-sided · 104 pages

CELESTIAL ATLAS

49 Constellation Plates from Real Star Positions
