

Enough Money, Enough Calm

A financial-anxiety mindset workbook

Arden Vellor

THE RITUAL LIBRARY

A note before you begin

This workbook supports personal reflection about money feelings and choices. It is not financial, legal, tax, investment, or mental-health advice. Consult qualified professionals for decisions that require them.

You are allowed to slow down before reacting. This book separates facts, feelings, and next steps; it does not require a particular financial outcome.

Prepublication candidate: do not publish until the brand-owned QR/audio route, claims review, KDP preflight, and physical-proof gates are complete.

Money feelings deserve a steadier place to land.

Use this workbook before a money task, after a difficult conversation, or when a thought keeps looping. Begin with facts. Make the next step small. Ask for support where it belongs.

My calm-money supports

This page is not a budget or advice. It is a map of support.
