How to use this journal

Sensation first, story second

- Name where it started in the body. Time the peak if you can. Then the prompt.
- Checking, googling, and reassurance-seeking get a checkbox so you can see the loop.
- This is not CBT homework assigned by a book. If you have a therapist, bring pages they ask for.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Peak minutes	How long the worst of it lasted
Check	Phone, portal, person, mirror
