

GLP-1 TRACKING SERIES

Plateau-Breaker 30-Day Challenge

Daily habit grids, mindset prompts, and a second encore cycle

Thirty challenge days + thirty encore days · 6 × 9 in

Undated · Personal use · Not medical advice

A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication (including semaglutide or tirzepatide programs), treat this book as a log of your own observations. Dosing, titration, missed doses, and side-effect decisions belong only to you and your prescriber. A plateau is not a diagnosis. Sudden or severe symptoms need a clinician, not a challenge calendar.

How to use this journal

How the 30 days work

- Each day is a two-page spread: habits and a prompt on the left, protein/movement/NSV on the right.
- Do not add five new habits. Tick the grid honestly. The point is a clean signal, not a gold star.
- A weekly review sits after every seven days. After day 30, use the encore pages if you want another cycle without buying a second copy.

About pep talks

- Prompts are printed in the book so you do not need an audio file or a QR code. Read them out loud if you like.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Habit tick	Done enough. Not perfect.
Encore	A lighter one-page day if you repeat the cycle

Where I am starting

My definition of a plateau (how long, what I expected)

Protein and step targets I was already given

The one habit I will not drop even if everything else slips

How I will celebrate day 30 without using the scale as a judge

CYCLE ONE

30-day challenge

Two pages a day. Honesty over intensity.

☐ Occasion 4

Steps · movement · lifting

Steps

Lift / carry

Non-scale victory

If the scale did not move, what still counted?

One setup for tomorrow (food, shoes, calendar)

Wake time

Sleep (h)

☐ Protein target

☐ Water goal☐ Strength / lift☐ Screen-off hour

 Fiber focus

☐ Step target

☐ 10 min outside

☐ In bed on time

What does 'enough food' mean on a low-appetite day?

What I actually did (not what I intended)

Steps Lift / carry

Week 4 review

Average follow-through (1-10) and why

The habit that slipped — and the real reason

Evidence the plateau is not the whole story

Adjustment I will test next week (not a new personality)

Optional QR

Paste your own pep-talk / audio link. Leave blank if unused.
