

GLP-1 TRACKING SERIES

Titration Schedule Notebook

*Pocket log for dose dates, next-pen reminders, and
sticker space*

5 × 8 in (KDP pocket trim) · Fifty-two weeks

Undated · Personal use · Not medical advice

A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

If you use a GLP-1 or similar medication (including semaglutide or tirzepatide programs), treat this book as a log of your own observations. Dosing, titration, missed doses, and side-effect decisions belong only to you and your prescriber. Never change a dose because a table in a notebook looks 'due.' Only your prescriber sets titration.

Intention for this volume

How to use this journal

How to log, not how to titrate

- Copy the dose your prescriber already gave you. Write the date you took it. That is the whole job.
- Use the next-pen line when you open a new pen or vial so you are not surprised mid-week.
- The margin is for a small sticker or lot number. This is a record, not a protocol.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Dose column	The amount you were directed to take — copied, not chosen
Skip / delay	If a dose was delayed, write why; do not 'catch up' unless instructed

Where I am starting

Prescribed starting dose (record only)
