

WELLNESS TRACKING SERIES

ADHD Medication & Focus Log

Dose/time grids, side-effect columns, Pomodoro stamps, weekly reviews

Ninety undated days · 6 × 9 in

Undated · Personal use · Not medical advice

A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

This journal is a personal tracking and management tool. It is not treatment, therapy, or a diagnosis. It does not replace a clinician, counselor, pelvic-floor physical therapist, registered dietitian, or other licensed professional. Never change a stimulant or non-stimulant dose because a journal 'looks like' it is time. Shortages, crashes, and sleep problems belong in a clinic conversation. This book is not a prescribing guide.

If found, please return to

Intention for this volume

How to use this journal

Record the bottle, not a theory

- Copy the name, amount, and time you were directed to take. Tick 'taken' when you take it.
- Fill a focus box only for a block you started. Empty boxes are information.
- The stamp box is a cheap dopamine close-the-loop. Use stickers or scribbles.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Focus boxes	One box ☒ one started 25-minute block
Crash line	When the day fell off, if it did

Where I am starting

Current prescription (copied from the bottle)

Usual start time of the first dose

Sleep cutoff I was given, if any
