

WELLNESS COMPANION SERIES

Glucose & Meal Timing Log

Ninety days to copy meter / CGM readings and meal times as directed

Not a dosing protocol · 6 × 9 in

Undated · Personal use · Not medical advice

A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

This journal is a personal tracking tool. It is not therapy, diagnosis, or treatment. Seek urgent care for chest pain, fainting, thoughts of harm, or a sudden change you cannot explain. Do not change insulin or other medication from a paper log. Lows, confusion, or fainting need urgent care.

Intention for this volume

How to use this journal

Copy the meter, don't interpret a career

- Write the number, the time, and what you had eaten if that is how you were taught to log.
- Targets belong to your clinician. This book leaves them blank on purpose.
- CGM graphs live in the app. This is the paper trail for a visit.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

As directed	The schedule you were given
Note	Exercise, illness, extra food
