# **The Slow Page**

Digital Edition - Print at Home

This PDF is the complete interior of the book, licensed for personal use at \$6.99. You may print it at home or at a print shop for your own use, as many times as you like, for one household. You may not resell it, share the file, or use it commercially. The printed paperback edition is a separate product and the best way to use this book.

Printing tips: print at 100% (actual size). US Letter or A4 both work. Single-sided pages are easiest for coloring and journaling.

QUIET MIND PRESS

## The Slow Page

One slow page a day: a single thing done slowly, sensory detail,  
and a list of what you're not doing. Season gates for spring,  
summer, autumn and winter; sabbath pages each week. Undated  
— enter whenever you like, in any season.

# How to use this journal

---

## The slow page

One thing, slowly. Four senses. A not-doing list. An enough checkbox.

## Season gates

Four elegant openers, each with intentions for the season ahead.

## Sabbath pages

A weekly page for one walk, one meal, one hour, one rest.

## No dates

The journal doesn't know what day it is. Neither should you, briefly.
