How this journal works

Cycle wheel

- Fill today's rings on treatment days. The wheel shows where you are in the cycle — calm for you, useful at clinic.

Side-effect meter

- One bar per symptom, 0-10. Meters are kinder than memory and faster than explanation.

Appointment brief

- Use the one-page brief: what happened, what helped, what to ask. Records only — no treatment advice, ever.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Where I am starting

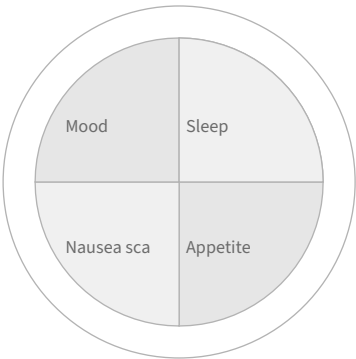

One honest thing I already know:

One thing I want the record to show:

Where I want to be in 30 days:

One rule I am setting for myself:
