A note before you begin

This journal is a personal tracking and management tool only. It is not medical advice, diagnosis, or treatment, and it is not a substitute for care from a licensed clinician. It is not affiliated with, endorsed by, or sponsored by any medication manufacturer or healthcare brand. Do not start, stop, or change a medication, meal plan, or activity based on this book. Record only what your own prescriber has directed. If you notice concerning symptoms, seek professional medical care promptly.

Personal tracking / management tool only. Not medical advice. Records what you and your own care team directed; this book gives no advice.

How this journal works

Meds grid

- Time, medicine (as directed by the prescriber), given by, note. The grid is a record, not advice.

Handoff sheet

- Fill the lines the next shift needs: ate, slept, mood, changes, concerns. Handoffs are where care quietly breaks.

Respite check

- Three lines only. If you skip them for nine shifts, that is a signal — for you, not a failure.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Where I am starting

One honest thing I already know:

One thing I want the record to show:

Where I want to be in 30 days:

One rule I am setting for myself:
