How this journal works

Two ladders

- Urge in the morning, urge at night. The gap is the story.

Evening map

- What you did in the two hours before bed: walk, sit, screen, bath. Map, not verdict.

Sleep pressure

- One gauge of how sleep also felt. Pressure is data, not failure.

Marks & scales

Use these marks consistently so patterns are easy to see later — and easy to share with your care team.

Where I am starting

One honest thing I already know:

One thing I want the record to show:

Where I want to be in 30 days:

One rule I am setting for myself:
